

IMC Learning Suite again among Top 10 Learning Management Systems

Craig Weiss, leading e-learning expert and thought leader, publishes his annual market overview of Learning Management Systems

Saarbruecken/Germany, February 11th, 2016

Last Sunday, Craig Weiss has announced on his ["E-Learning 24/7 Blog"](#) the top-ranked LMS suppliers based on his detailed analysis of 690 Learning Management Systems from all over the world.

Following on from previous reports, IMC has again secured a position within the top 10 ranking for LMS providers. Weiss is excited: "First and foremost this is a system for the 10,000 plus "internal employee" crowd and the external B2B/B2C folks. The regular updates, Innovation Packs, add a wealth of new features and enhancements. The system is very strong with compliance and feature rich. Multi-tenant (included at no additional charge), so it's an optimal solution for extended enterprise users. Ease of use is good, admin side on UI wise is solid. UX (user experience) strong. Mobile is nice. IMC skin the mobile app to your colors/logo - which is very, very cool (and not common at all in the space) ", so Craig Weiss.

Analysing the Learning Management Systems over different verticals, the [IMC Learning Suite](#) has been ranked as the number two solution for both, life science industry, including healthcare, and for manufacturing. Craig Weiss values the IMC Learning Suite in third place as an enterprise solution for large businesses with 10,000+ employees.

Dr Tobias Blickle, board member of IMC, is proud of the international honor: „The ranking reflects IMC´s successful innovation strategy. For us it is of utmost importance that our customers benefit in a timely manner from the latest developments and enhancements. We see this ranking as clear recognition of the leading position IMC Learning Suite has in the market.“
